Policy

Electric Power ULV Sprayer / Fogger

Advantages:

- Light weight & Portable.
- Easy to handle.
- Trouble-free operation.
- Effective coverage with less spray solution.
- Blow moulded tank.
- No mess after spraying.
- Cleaner environment after spraying.

Ultra Low Volume droplets:

A Unique nozzle assly made from engineering plastic to produce Ultra low volume droplets. Designed using latest CAD CAM technology.

Motor with double stage axial blower runs at the speed of 20,000 RPM:

The blower moves a large amount of air through the nozzle assly consisting of three individual nozzels, each of which has two sets of air directing fins. One air fin causes the air to be rotated clockwise and the other counter-clockwise. This opposite & circular Pneumatic action shares the spary solution into small droplets.

TECHNICAL SPECIFICATIONS:

TANK CAPACITY: 4 Ltrs

CHARGER: 220V, 50hz

SPRAY VOLUME:
Discharge capacity: 5-25L
Hour particle: 15-50µm

WEIGHT: 4 kg

DIMENSIONS:
35.5 x 27 x 47.5 cm

BEST FOR:

Sanitizing & Disinfecting

- Supermarkets
- Buildings
- Schools
- Hospitals
- Hotels
- Offices
- Factories
