

# i-scrub 26H

## Superior surface cleaning tool

The i-scrub 26h replaces hand cloths and exposes hidden soiling with the inbuilt UV light. Enabling a completely new level of surface wiping productivity and effectiveness.

### Rubber grip

Comfortable, ergonomic hand grip for extended cleaning periods. Optional set of 4 grips for colour coding applications.

### 700 wash guarantee

i-fibre is designed for serious commercial use, lowering the total cost of ownership.

### Integrated UV light

Expose stains and residual bacteria invisible to the naked eye.

### Inbuilt scraper

Remove tough soil with the inbuilt scraping edge.

### Trio-split microfiber pads

Fully colour coded with triple the dirt removal capacity of traditional microfibre.

### Soft-edge technology

Dust and clean rounded areas such as sinks and cornices.

### Superior cleaning

Clean faster, offers even surface pressure compared to traditional microfibre hand cloths.
